

Abdul Manan

MARKETING SCIENTIST & SENIOR WEB ANALYTICS SPECIALIST

Lahore, Punjab, Pakistan | hello@manmarsci.com | linkedin.com/in/abdul-manan-15872b207

PROFESSIONAL SUMMARY

A strategic bridge between complex data engineering and marketing growth, offering over 4 years of hands-on experience designing and executing robust digital tracking infrastructures. Evolved web analytics expertise into Marketing Science by completing the Google Advanced Data Analytics framework. Combines mastery of advanced tag management platforms (GTM, Tealium) with Python-driven predictive modeling, machine learning, and cloud data warehousing (GCP, BigQuery). Specializes in architecting scalable tracking pipelines that transform raw event data into predictive analytics, attribution models, and optimized ROI.

CORE TECHNICAL ARSENAL

Marketing Analytics	GA4 (App & Web), Segment, Amplitude, Attribution Modeling, Funnel Optimization, CRO
Tagging & Infrastructure	Google Tag Manager (Web & Server-Side), Tealium (iQ, EventStream, AudienceStream)
Data Science & ML	Python (Pandas, NumPy, Scikit-Learn), Regression Analysis, Predictive Modeling, Supervised/Unsupervised ML
Cloud & Databases	Google Cloud Platform (GCP), BigQuery SQL, Data Warehousing, ETL Pipelines
Visualization & CRM	Looker Studio, Tableau, Salesforce Integration, HubSpot Integration

PROFESSIONAL EXPERIENCE

Tag Manager Specialist	June 2025 – June 2026
muSharp	Lahore, Pakistan
- Architected and deployed complex web and server-side tracking infrastructures utilizing Google Tag Manager (GTM) and Tealium (iQ, EventStream, AudienceStream) for enterprise applications. - Connected fragmented offline/online customer data profiles by establishing robust API integrations between web properties and CRMs (Salesforce, HubSpot), decreasing data tracking discrepancy. - Leveraged GCP and BigQuery to warehouse raw event data, transitioning marketing reports from basic dashboard views to custom multi-touch attribution models.	

Web Analytics Manager

LUUX Media

February 2022 – May 2025

London, UK (Remote)

- Led complete digital tracking, analytics, and interactive data visualization initiatives for a high-velocity media agency.
- Designed and maintained high-impact Looker Studio dashboards, delivering executive stakeholders deep visibility into campaigns, traffic pipelines, and spend-to-revenue models.
- Implemented custom GA4 event tracking frameworks and schema across web/app architectures, driving conversion rate optimization (CRO) methodologies to boost digital marketing ROI.

Web Analytics & Tagging Specialist

Upwork

November 2021 – April 2025

Remote (Global Clients)

- Consulted global brands on technical tag management audits, standard-to-GA4 migrations, and custom pixel setups.
- Programmed advanced custom JavaScript variables and clean Data Layer pushes in GTM to parse granular user behavior metrics.
- Delivered scalable visualization products and helped clients set up basic predictive and custom conversion funnels.

Web Analyst

Upside.Digital

April 2022 – February 2023

Sydney, Australia (Remote)

- Developed structured Google Analytics setups and robust tag deployments to monitor complete conversion funnel performance.
- Constructed behavioral funnel visualizations to locate high drop-off steps, guiding CRO efforts and testing campaigns.

EDUCATION & CREDENTIALS

BS, Mechanical Engineering

University of Engineering and Technology, Taxila

Google Advanced Data Analytics Certificate

Specialization: Machine Learning, Python, Regression, Predictive Models

Tealium Certifications

AudienceStream CDP, EventStream API Hub, iQ Tag Management
